**RENEWED PETITION UNDER 37 CFR 1.78(a)(6) FOR ACCEPTANCE OF AN  
UNINTENTIONALLY DELAYED CLAIM FOR PRIORITY**

Sir:

Pursuant to the provisions of 37 CFR 1.78(a)(6), Applicant hereby respectfully petitions for acceptance of an unintentionally delayed claim for priority.

Applicant filed U.S. provisional patent application no. 60/173,980 on December 30, 1999. Applicant filed the present application on January 2, 2001 – the next business day after December 30, 2000 (a Saturday). Applicant is therefore entitled to claim priority to the '980 provisional application.

The entire delay in making the present claim of priority was unintentional.

A Substitute Amendment to insert the following heading and paragraph into the present application is being filed concurrently with this Petition:

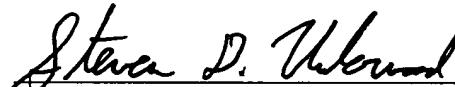

**This application claims the benefit of U.S. Provisional Application No. 60/173,980,  
filed December 30, 1999.**

The previously-filed Petition was dismissed because the amendment improperly included an incorporation by reference statement. The present Substitute Amendment does not include an incorporation by reference statement, and this Renewed Petition is now believed proper.

Since the petition fee under 37 CFR 1.17(t), has already been paid, no fee is believed to be due with this Renewed Petition. However, please charge any fees due to Deposit Account No. 50-0310.

Respectfully submitted,

Dated: March 29, 2007
